5-Year Performance Period - The reporting period. (5-year reporting period or based on program accreditation)

Number of Fellows Who Completed Training - The total number of Family Medicine fellows with a training end date during the performance period.

Taken - The total number of First Time Taker exams taken by the fellows who completed training during the performance period.

Passed - The total number of First Time Taker exams passed by the fellows who completed training during the performance period.

Failed - The total number of First Time Taker exams failed by the fellows who completed training during the performance period.

Take % - The percentage of exams taken divided by the number of fellows who completed training in the performance period.

Pass % - The percentage of exams passed divided by the number of fellows who completed training in the performance period and took the exam.

Program Average - The program average scaled score for all first time examinees who completed training in the performance period. N/C if less than 3 fellows took exam.

National Average - The nationwide average scaled score for all first time examinees who completed training in the performance period.

## 5-Year Performance Period

The reporting period. (5-year reporting period or based on program accreditation)

## Number of Fellows Who Completed Training

The total number of Family Medicine fellows with a training end date during the performance period.

## Taken

The total number of First Time Taker exams taken by the fellows who completed training during the performance period.

## Passed

The total number of First Time Taker exams passed by the fellows who completed training during the performance period.

## Failed

The total number of First Time Taker exams failed by the fellows who completed training during the performance period.

## Take %

The percentage of exams taken divided by the number of fellows who completed training in the performance period.

## Pass %

The percentage of exams passed divided by the number of fellows who completed training in the performance period and took the exam.

## Program Average

The program average scaled score for all first time examinees who completed training in the performance period. N/C if less than 3 fellows took exam.

## National Average

The nationwide average scaled score for all first time examinees who completed training in the performance period.

5-Year Performance Period - The reporting period. (5-year reporting period or based on program accreditation)

Number of Fellows Who Completed Training - The total number of Family Medicine fellows with a training end date during the performance period.

Taken - The total number of First Time Taker exams taken by the fellows who completed training during the performance period.

Passed - The total number of First Time Taker exams passed by the fellows who completed training during the performance period.

Failed - The total number of First Time Taker exams failed by the fellows who completed training during the performance period.

Take % - The percentage of exams taken divided by the number of fellows who completed training in the performance period.

Pass % - The percentage of exams passed divided by the number of fellows who completed training in the performance period and took the exam.

Program Average - The program average scaled score for all first time examinees who completed training in the performance period. N/C if less than 3 fellows took exam.

National Average - The nationwide average scaled score for all first time examinees who completed training in the performance period.
