Become More Involved with the ABFM

ABFM Engagement Network

Established in 2019, the ABFM Engagement Network is a virtual network of Diplomate volunteers who provide feedback, perspective and fresh ideas about a variety of topics around certification activities and processes. Participation in the network involves periodically answering brief surveys that will provide ABFM with valuable crowd-sourcing information to help guide our work on evolving Family Medicine Certification.

Connect with ABFM

To connect with family physicians in person and collaborate with partnering organizations, ABFM staff and leaders attend various AAFP State Chapters meetings, conferences and other events throughout the year.
